### ENTREPRENEURSHIP TRAINING PROGRAM

Wroclaw Research Centre EIT+ Sp. Z.o.o.

13-16/6/2011

# **Objectives:**

The Entrepreneurship Training Program is aimed at providing the participants with basic skills and methodologies of identifying and assessing new business opportunities (in particular in the High-Tech space) and starting and managing a new venture.

# **Workshop Topics:**

- **1.** <u>Business Opportunity Evaluation</u>: introducing methodologies for assessing innovation and business ideas.
- 2. The Business Plan: how to prepare a successful business plan?
- **3.** <u>Introduction to Project Management:</u> what is required to successfully develop a product?
- **4.** <u>International Business and Legal Aspects:</u> including, international transactions and intellectual property rights legal and commercial aspects.
- 5. <u>Participants' Presentations</u><sup>1</sup> (Assignment)

<sup>1</sup>Participants (teams of 2-3 persons) will be encouraged to present - based on the methodologies acquired during the workshop - ideas to establish new ventures for evaluation by the lecturer and their classmates. Details will be provided by the lecturer.
